We shall keep this up until we have you interested, either for yourself or for one of your friends.

THE FIRST THING TO DO—Cut out the nomination blank, which will be found in each issue of The Intelligencer. Fill in the blanks with your name, etc., if you wish to nominate yourself, or with the name of anyone else whom you may choose to nominate. Be very careful to write plainly, so that there can be no possibility of an error being made. There is no doubt that many contestants will be careless in making out their nominations and subscriptions, though we wish to avoid it as far as possible, and will ask the co-operation of those interested in the contest. Please bear this in mind securing subscriptions to The Intelligencer.

THE THIRD THING TO DO—As soon as you are nominated, get out among your friends; get them to subscribe for The Intelligencer, giving you their vote (note scale will be found in each issue of the paper). Send the subscriptions to the Contest Manager, together with the amount covering each subscription. An early start will be of great advantage to you as a few of these will put you so high up in the list that you won't want to allow anyone to beat you. There is no reason that you should, either. All you need to do is to keep on working. Pay no attention to how many votes some one else has; look after your own candidacy, and thereby set a good example for the other contestants.

ROBIN WAS SAYS THE JURY

Although Five Alienists Had Declared the Man to be Crazy—His Dealings Did Not Show That His Mind Was Affected—Strong Remarks by His Counsel

NEW YORK, Feb. 2.—Joseph G. Robin, alleged wrecker of banks, must stand trial on right intention, charging larceny in the first degree. Although five alienists testified that in their opinion it is crazy, a jury before Judge Swan in the Court of General Sessions thought otherwise, and returned a verdict of "not guilty" late this afternoon. When Trevor J. Robinson, unwillingly acting as counsel for Robin, under court appointment, declared that there had been a gross miscarriage of justice, Judge Swan on the other hand contemplated the jury for their verdict, contrary to expert opinion.

Robin himself spent more than an hour on the stand today and gave a rambling account of his affairs and beliefs, raising from alleged attempts on his life to a declaration that he believed A. M. Hutchins, chief examiner of the State Banking Department, paid upon securities covering loans held in trust by the Lividore branch of the Northern Bank of New York, one of Robin's institutions.

As a proof of this statement he exhibited a cheque for \$1,000, dated May 1, 1907, made payable to Mr. Hutchins and endorsed with what purported to be Hutchins' signature. Mr. Hutchins, when seen this afternoon, first declined to comment on a statement which he attributed to a crazy man, but tonight he issued a written statement giving his side of the case. He said that in 1907 Frederick D. Kilburn, then state superintendent of banks, suggested that he could obtain stock in the Fidelity Development Company, a newly organized real estate concern, of which Mr. Kilburn was president. On this subject he said he raised \$25,000 among himself and relatives and purchased 40 shares of the preferred stock. "After owning this stock for about three months," continues the Hutchins' statement, "I learned for my first time that Joseph G. Robin was dom-

The Banquet Was a Pleading Affair—A Long Toast List and Many Speakers—Governments Censured for Not Doing More for the Farmers—Technical Education Wanted—Mr. John Elliott—Gave Good Counsel

All the fine qualities possessed by the celebrated Holstein cow were exhibited last evening when the first annual banquet of the Holstein Breeders Club was held. It proved to be a most pleasant and profitable affair. It was held at the Hotel Marlborough, and Mr. J. H. Pratt, provided a most tempting and sumptuous repast, which was liberally partaken of by the large number present.

Mr. A. D. Foster, an astounded, president of the club, occupied the chair. Mr. F. R. Mallory, Hon. President of the Association, was the toast master of the evening and in a fitting manner proposed the following toast list:

"The King." The National Anthem, by the company.

"Our Country." Mr. J. H. Pratt, of Annapolis, was the first speaker to the toast. The speaker, however, he said, had every reason to be proud of his club. In speaking of the Holstein cow, Mr. Anderson said that breed of cattle was superior in price, price example where large prizes were being paid for this class of cattle.

Mr. D. Foster, of Bloomfield, President of the club, spoke to the toast, and found a market in the U.S. and finding a market in the U.S. was not a problem. He spoke of the fact that the Holstein cow was the best of all breeds, and that it was the only breed that was not only good for milk, but also for meat. Those City Lots

Mr. L. W. Marsh, a former Mayor of this city, has published a document in which he offers a defense of himself and City Treasurer Price in the sale of city lots, and preface it by an attack on Mr. Mayor J. W. Johnson, M. P., in connection with the sale of city lots. Marsh was in office. In justice to Marsh, it may be stated that he does not accuse Mr. Johnson of selling lots at most profitable prices to his relatives.

We will not at present discuss the attack of Mr. Johnson through those to say that it is of no importance a chapter as to condemn the whole thing.

If Mr. Marsh will furnish the following information, we and the public will be placed in a position to judge the situation in the light of the facts.

1.—The correspondence between Marsh and Price and the latter's relatives as to the latter's speculative investments in the city lots.

2.—The dates of the sale of the lots, and the prices paid for them.

3.—The amounts which were offered by others than the relatives.

4.—The dates of the sale of the lots, and the prices paid for them.

5.—The date at which the lots were sold on behalf of the city by Marsh, Marsh and Price.

6.—The date of the power of attorney given to Marsh, Marsh and Price respectively.

7.—The information has been given, the field will be cleared of all discussion of the subject.

The Railway Bridge

Does the City Council wish the Canadian Northern Railway Bridge to run through Belleville, and that at the earliest possible date, or does it not?

In the face of the fact that the Railway Commission has twice issued an order giving the company subscribers papers with the consent of the Government, the Council has passed the following resolution:

"That it be recommended to the Council that the Government of Canada be petitioned to order the company to build the bridge above the site of the Canadian Northern Railway bridge, and that the Railway Commissioners be requested to co-operate with the corporation in the matter. That the bridge be built on the site of the bridge, as recommended by the Government engineer."

It is a fact that only a small portion of the whole in question can be decided, as a short distance north of the site selected for the bridge is a lot of rock overlaid with a foot or two of soil, covered by a foot or two of water, making a depth of not over 10 feet to the rock. As no dredge can work in less than 5 ft. 6 in. of water, or dig up the rock, it follows that the whole must be removed by blasting, as was done on the western side several years ago, when a channel was cut through it toward the lower bridge.

No blasting is now being done, and it is not probable that it will be, as a year to perform the necessary work.

Why, the Government should be petitioned to order the company to build the bridge above the site of the Canadian Northern Railway bridge, and that the Railway Commissioners be requested to co-operate with the corporation in the matter. "That it be recommended to the Council that the Government of Canada be petitioned to order the company to build the bridge above the site of the Canadian Northern Railway bridge, and that the Railway Commissioners be requested to co-operate with the corporation in the matter. That the bridge be built on the site of the bridge, as recommended by the Government engineer."

It is a fact that only a small portion of the whole in question can be decided, as a short distance north of the site selected for the bridge is a lot of rock overlaid with a foot or two of soil, covered by a foot or two of water, making a depth of not over 10 feet to the rock. As no dredge can work in less than 5 ft. 6 in. of water, or dig up the rock, it follows that the whole must be removed by blasting, as was done on the western side several years ago, when a channel was cut through it toward the lower bridge.

No blasting is now being done, and it is not probable that it will be, as a year to perform the necessary work.

Why, the Government should be petitioned to order the company to build the bridge above the site of the Canadian Northern Railway bridge, and that the Railway Commissioners be requested to co-operate with the corporation in the matter. That the bridge be built on the site of the bridge, as recommended by the Government engineer."

BLACK SNOW

Remarkable Phenomenon in E mental Valley

Black snow may result from volcanic ash, but is also formed by mineral and organic matter that has accumulated in a depth of 15 inches in the valley, covering the white snow which lay on the ground and grass in the district a dismal appearance. The flakes were of a grey color, and mixed with ashes, but as the down increased the snow took the hue of black, and now it lies frozen on the ground black in color. Swiss scientists attribute the phenomenon to a recent eruption of Mount Etna, carried by the wind over the Alps into Switzerland. The black snow, though rare, has been expected in this country on previous occasions when "red" snow and "green" snow fell after volcanic eruptions in various parts of the world.

WHO WAS THE BEST JOCKEY

● Earl of Coventry Gives Ford First Place

The Earl of Coventry, who has been connected with the Turf for over a century, has been giving some of his impressions to the "Standard." In regard to jockeys, he says:—"The only one that has ever been, to my thinking, a good jockey, was George Fordham. He had perfect poise and a sound knowledge of paces, and would certainly put him by himself. I think him the best rider I ever saw. Fred Archer was another very successful jockey. I have seen him win a sheer determination. The winner on Ben d'O'r at Epsom was a piece of determined horsemanship. The American system of riding is always very much opposed to the English. I am afraid it has come to stay."

ADVERTISING-HIS—Suggestion for successful advertising. To double your advertising is to double the power. The more you will do of some distant, by no means, more money is to be made. The intelligence is the only one that is not to be made. The intelligence is the only one that is not to be made. The intelligence is the only one that is not to be made.

The Ladies of Belleville May
Now Grow Beautiful Hair

D. M. Waters, backed up by the manufacturers of SALVIA, the Great Hair Grower, guarantees it to grow hair.

SALVIA destroys dandruff in ten days.

The roots of the hair are, so nourished and fed that a new crop of hair springs up, to the amazement and delight of the user. The hair is made soft and fluffy. Like all American preparations, Salvia is daintily prepared. It is hard to find an actress who does not use SALVIA continually. A large bottle for 50 cents.

They have turned down many good offers from towns to play their games there so Port Hope should hence up and give them the support they deserve.

OLD BRUIN GETS SHANTY CROW WARM TUSCLE—Was Sleeping Under Roots When Tree Was Felled and Mauling a Couple of Men Before he Was Despatched

OTTAWA, Feb. 6.—"If you have any idea of the means to kill, read this to J. J. MacRae's eyes, and he will go to Ottawa at once."

So read the concluding sentence of the tale of the desperate fight with a monster bruin, told down by Mr. Thomas Vane of J. J. MacRae's lumber firm, in the town of Pelee, Ontario, to the Ottawa Citizen. According to the writer two of these beasts have a shanty crew of about 100 lumbermen at Pelee, recently two of them, Lester Lauder and his chum, C. Henderson, engaged in cutting down a tree. During the operation they have a crowd of men assisting, but were unable to contain the tree. The tree being felled, they decided to cut the "tree" and have him investigated. He is, in fact, a monster, his trunk was some 100 feet long and his head was 10 feet wide. When the dog had cleared away, he began to scatter the crowd and to maul the men. Mr. Henderson stepped down to see what kind of an animal was coming up so quickly the winter, when he suddenly found a huge bear, which he could not jump a huge bear, which struck and caught him a shanty crew.

THE POLITICAL CANDIDATES WHO LOSE EVERY DAY

The Uncertainty, Which is One of the Most Absorbing Features of the Contest, Will Continue to the End—Candidates Keeping Their Reserve Strength to Themselves—Miss Gertrude Yourer Takes Lead in District No 1

The battle of the ballots goes merrily on. One of the most interesting developments of the contest is the uncertainty as to the final outcome, which has been generated by the reserve vote held by some of the candidates.

The number of votes held in reserve by some of the candidates is furnishing an engaging topic for speculation on the part of other candidates, and the very uncertainty created by the reserve forces is forcing every eye of the contestants to the latest returns.

There is no way of ascertaining how many votes are being held in reserve by any of the candidates, and while the contest department will continue to regard such knowledge as it may have in this connection as sacrosanct, confidential, some attempts may be made for when the time arrives for the contestants to show the full strength of their hands.

There are some who have not yet figured among the leaders who may be expected to jump towards the top spot any day.

And that is why every candidate is improving every opportunity to secure votes and subscriptions. The weather we are now enjoying is ideal. No more favorable condition for the pleasant work of the contest could be desired, and it is more than likely that the contest party forth during these days will have much to do with deciding the award of the prizes on March 25th.

HOW BALLOTS ARE SECURED.

In all cases where vote certificates are issued, subscriptions must be paid in advance. The full amount of money must be sent direct by mail, paid to the contestant, or brought to this office.

COST OF RECROSSING

Effects of Treaty of 1854-55
Were Disastrous to Canadian Interests

TORONTO, Feb. 8.-The Canadian Century publishes an article written by Mr. George D. Griffin, of Toronto, in his eighty-sixth year, on the recrossing treaty of 1854, between Canada and the United States, and its effect on Canadian conditions. Through the manufacturing concerns of the latter, who founded the village of Watford in 1850, and established there a steel and iron works, he has secured a large share of the business of the latter.

He stated that "the had a clear summary of the industrial and financial conditions of Canada from 1850 to 1880 and of the conditions during the treaty and the conditions in the territory in the present time—his, in 72 years."

This recrossing treaty, the termination of human life and gives Mr. Griffin's article, in addition to its intrinsic value and importance, as a statistical personal interest. He was also able to draw upon a large fund of its titles, which he contributed to publish in his Canadian Quarterly Review of October 1907, published in his Dominion Watchman, from and in the Dominion of the Dominion.

Contrary to common belief, Mr. Griffin held that the government had not secured the treaty, but that it was a disaster to Canada, industrially, commercially and financially. He pointed for example to the Canadian carrying trade on the Lawrence river, which dropped from \$2,000,000 in 1854, to \$150,000 in 1880, the first year of the treaty, and to \$100,000 in 1880, a decrease of \$1,900,000, or thirty per cent. Large decrease also occurred in the amount of shipping enterprises and the leaving of the Lawrence, while the total value of the exports and imports at the mouth of Montreal and Quebec fell from \$42,000,000 in 1854, to \$20,000,000 in 1880.

He told Mr. Griffin called for the production by the Government of what he termed a retrospective balance sheet, which would show the results of the "unlimited benefit" to Canada which is now being claimed by the trade agents, speaking from their own personal experience.

Mr. Griffin affirmed that great reductions took place in farm production and in city property during the early years of the treaty. He told us that the production of the early years of the treaty was the result of the treaty.

Mr. Griffin affirmed that great reductions took place in farm production and in city property during the early years of the treaty. He told us that the production of the early years of the treaty was the result of the treaty.

EDSON WAGON ROAD NOW COMPLETED TO THE PEACE RIVER

EDSON

THE BASE OF SUPPLIES

Dream Of Many Years Realized

HOW EDSON WILL GROW

REAL ESTATE
VALUES WILL
BOUND
UPWARDS

The successful completion of a short wagon road from Edson to the upper waters of the Peace River has placed the final nail in the structure of enterprise that has made Edson the gateway to the Peace River country. This wonderful and far-sighted project is at last easily accessible to the settler, and the cash to secure the homesteads has commenced.

The commercial expansion of Edson is now assured, and, as has been shown, to a hundred instances during the development of Western Canada, real estate values rise concurrently with the expansion of trade, and rise with phenomenal rapidity in all distributing centers.

Only a few lots remain unsold in the original Grand Trunk Pacific townsite, and may still be purchased at first cost. They are going rapidly, and your chance to get cheap into this star city of the West is quickly passing away. The time to buy is now. If you wait till the city is built up, and improvements made, you will pay a high price for the same property.

Below will be found a table of statistics showing the marvellous increase in population in other distributing centres in Western Canada during the last two years and value increase accordingly. Below will also be found a table of statistics showing the enormous immigration into Canada during 1910. This volume of settlers is on the increase every year and it must be remembered that during the period of the most rapid development of these other cities the migration was only a fraction of what it is now made it will be the future.

Trucking in Supplies from Edson.
A recent dispatch from *Edmonton, Alta.*, to the press says: "The emporium of last week has been joyfully welcomed by the hundreds of freighters who have been waiting here and at points eastward to begin the work of hauling supplies to the frontier. The first of the line for this year's construction operations on the Grand Trunk Pacific. Two thousand men and teams will be employed in this work from now until the spring opens up. This will give Edson a good business start on the way to the day that a prediction will be true."

Edson-Grande Prairie Road.
The road to the Grande Prairie has been completed from here to its junction with the government road to the same place at the confluence of the Baptiste and Athabasca rivers. This road makes Edson the nearest point on the railway to the Grande Prairie country, in which there will be a great trade. Home-steaders this spring, the most favorable time to start out on their journey. The distance from here to Grande Prairie is only 10 miles, as against 500 from Edmonton. On the latter route the smaller rivers that have to be crossed are being bridged, and the larger ones are being bridged. The larger ones are being bridged. The larger ones are being bridged. The larger ones are being bridged.

FIRST CLASS IMMIGRANTS COMING IN THOUSANDS

WILL REQUIRE
LARGE CITY
TO SUPPLY
THEIR WANTS

A recent dispatch to the Press says: With \$10,000 in his pocket, five thousand of supplies, and an unbounded faith in the country and himself, a settler started for the Grande Prairie last week. He was a native born American, who had come up from the States to farm on a big scale in the northwest.

This settler will require a big farm in the Grande Prairie. He sold his farm in Montana, and came with the cash in his pocket. After provisioning the supplies and farm implements he had \$2,000 left. He bought five teams and started out.

Woolly Party Coming.
A letter to the Canadian immigration authorities from Minnesota asks for information for a woolly party coming next spring. There are 25 farmers in the party. Each of them have from \$2,000 to \$5,000 in ready money in their pockets, and will bring their wealth with them. They want to go into farming on the scale in a big country, and have heard much of the Peace River. This is where they will strike when they come north next spring.

These thousand people will go into the Peace River and Grande Prairie country from the Pacific coast, and come on the trail of the westward movement with the conditions. The men of the Coast people are on that country, and some of them will be taken up by the men of that coast.

Harder Price Shipping.
The coming spring will witness the increase in prices of northern Alberta by citizens of the United States. The possibilities of the United States have been talked of in the States for a number of years, and next year will see a great influx of settlers from the States, following in the steps of those already established there.

This is the statement of W. H. Brewer of Gladwin, Mont., who with G. E. Lang, of Hiram, N. D., and Chas. Hill, of Breckenridge, N. D., are in the city of Winnipeg. They intend to travel in farming and grazing land. Mr. Brewer states that the Grande Prairie and Peace River districts are much talked of in the States, and believes that all the available land in these districts will be snapped up inside of a year.

These men are but the forerunners of the large number from across the line who will go out this year. Most of them will take up farming land, but a number will confine themselves to cattle raising, while quite a number will undertake to raise different parts of the United States and the large western towns.

The new roads will bring the different sections of the western government census returns for those years; for 1910 the figures are estimated from returns made by secretaries of boards of trade, municipal and police officers and business men.

A Group of Facts That Show Development of West

Immigration Into Western Canada, 1910.	
From Great Britain and Ireland	50,700
From Other Countries	45,200
From United States	100,700
Total	200,700
In five years ending March 31, 1910, immigrants have brought cash and silver effects into the country as follows:	
British-Cash	\$ 27,640,000
United States-Cash	167,500,000
Non-English Speaking-Cash	9,410,200
Total	\$238,550,200
Total value of land in the West	\$37,016,778 acres.
Allowing for tree crops, hay and gardens, less than 20,000,000 acres, or 5.4 per cent. of the total arable land is yet under cultivation. Prof. Saunders estimates that Western Canada has 17,000,000 acres of wheat land.

Prizes in Our Great Popularity Contest

When we decided to offer the ladies of Belleville and vicinity the chance to win prizes in a popularity contest, we took great pains to select prizes of great value to be of value to them. We thought of trips to Europe and a great many other things, but after due consideration decided on the prizes we are giving, because they are prize answers that would prove to win, and at the same time many of them are prizes that will last a lifetime. Everyone understands that the circulation of a newspaper is the foundation of what a newspaper stands, the stronger the foundation the better the newspaper. We ago aside to take care of a great many new subscribers, thus accounting for our decision to put on a big popularity contest. The prizes to be given are as follows:

1ST GRAND PRIZE.

The first Grand Prize, and most valuable of all the prizes in this great contest, is a handsome \$400.00 Kohler & Campbell Piano. It was purchased from W. B. Riggs and can be inspected at his store. Here you will find the manufacturers have to say about this grand instrument—Riggs on the men, they have character; likewise, this character is reflected in every detail of construction. It is the cumulative value of little things in the making of a piano that in value will equal the synthetically devised instrument. We want to tell you in detail of this instrument to be inspected because we know they will be creditable to the makers. The Heintzman Piano Co. is composed of men who have built up an industry on a solid foundation, who have distinct ideas in their undertakings. We invite the inspection of this grand instrument.

2ND GRAND PRIZE.

The second Grand Prize is a beautiful \$300.00 Kohler & Campbell Piano. This piano is coveted by experts to be the best value on the market at this price. It is a huge a grand instrument and is fully guaranteed by Mr. W. B. Riggs, from whom it was purchased.

DISTRICT PRIZES.

There are ten other prizes, which will place five in each of the two districts, making a total of six valuable prizes for each district. Included in the Grand Prizes. They are as follows:

Two beautiful \$100.00 Diamond Rings. The gems are perfect in every respect. They were purchased from Angus McEve and can be inspected at his store.

Two handsome \$75.00 Bedroom Suits, one purchased from S. B. Silks & Co., the other, a beautiful Brown Bedroom Suit, purchased from V. Thompson & Co. Both of these suits can be inspected at the above dealers.

Two \$50.00 complete Bureaus, Northland and Typewriting Cabinets in the Ontario Business College. This includes a complete outfit.

Two Ladies' beautiful Gold Watches. These watches were purchased from Mr. McEve and are fully guaranteed by him. They will be on display at his store.

THE WAY THE PRIZES WILL BE AWARDED.

The contestant receiving the largest number of votes in the whole contest territory, that is in both districts combined, will be awarded the 1st Grand Prize, the beautiful \$400.00 Heintzman & Co. Piano.

The contestant receiving the largest number of votes in the remaining districts after the first Grand Prize has been awarded, will be awarded the Kohler & Campbell Pianos. One piano will be awarded to each of the two districts.

The third highest candidate will have her choice of the remaining five district prizes.

The fourth highest will have her choice of the remaining prizes, and the other higher candidates have selected their prizes. This applies to both districts.

Every one has an excellent chance to win one of these valuable prizes. Just think, there are fourteen regular prizes and special prizes will be added from time to time during the contest and win one!

Any young lady who desires to enter this great contest and win one of the magnificent prizes offered should send her name and prize in to the Contest Manager. All that is necessary to win a prize is to receive the largest number of votes, according to conditions mentioned above in this announcement.

A nomination coupon is printed in this paper, which, when sent in to The Intelligence office with the prospective candidate's name and address, is good for 1.000 votes. Only one nomination ball for each name.

The easiest and quickest way for a candidate to win is for the candidate to ask their friends to pay and prepay their subscriptions in advance. It costs the subscriber nothing extra to do this, and they will save the annoyance of weekly and monthly collection. By so doing the candidate receives a special vote voucher, which is good for votes, according to the schedule, and will count at any time during the contest.

Any young lady reading in the territory mentioned is eligible to compete in this contest. Any one who desires to vote in this contest may do so by ballot cast from the paper, or by special vote coupons as printed on ballot.

This affords the girls of Belleville and outside territory an excellent opportunity to receive valuable prizes with very little effort on their part.

INSTRUCTIONS FOR VOTING.

Enter the name of the young lady whom you wish to secure one of the valuable prizes in this contest as a candidate. Better still, get the young lady to enter her name and then vote for her. Those who get

the names are entered at once. Candidates who enter their contest do not necessarily have to be subscribers to this paper. Enter your name and your friends will do the rest.

The first announcement as to who are the young ladies competing in this contest will be made Thursday, Feb. 2nd. We will then publish the names and number of votes each one has to her credit. After that the first announcement of candidates the votes will be published daily.

Any person has the privilege of nominating one or more candidates.

Nominations should be mailed to the Contest Manager before Feb. 2nd. Candidates can be nominated after that date, but it is of great advantage for each candidate to have her name in the first list published, so that her friends will not agree to work for some one else before knowing who are entering the contest. It is absolutely nothing to nominate a candidate. In all cases where ballots are issued subscriptions must be paid. The full amount of money must be sent forth by mail, paid to the contestants or brought to this office.

WHO IS TO BLAME

For So Many Sickly Children.

We hear of so many children who are sick, define, stunted, and who are not growing, and who are not healthy, and who are not strong, they play hard, work hard, and are not getting any better. It is the mother's fault who is to blame for all this suffering.

It is the mother's fault who is to blame for all this suffering. It is the mother's fault who is to blame for all this suffering. It is the mother's fault who is to blame for all this suffering.

Only a few days ago a case came to our attention—Mrs. A. G. Gilmer, of the city of London, Ontario. She was a mother of five children, and she was a mother of five children, and she was a mother of five children.

She was a mother of five children, and she was a mother of five children, and she was a mother of five children. She was a mother of five children, and she was a mother of five children, and she was a mother of five children.

Why Hudhope's Selected for Canada's "EVERITT"

We Needed a Car

In our 60 years of building horse vehicles, pressure from our customers demanded that the Tudhope product in Canada be a horseless vehicle—a motor car—which would be in that field of transportation as superior as the various Tudhope horse-driven vehicles in the past.

We wanted an ideal car at a low price—a car that would be handsome, comfortable, safe, efficient, simple and strong. This would answer the demands of the time.

Points? Cost? Worth?

After months of searching, testing, judging and comparing, we decided that the car for Canada was the "Everitt."

We had to get a car that would stand Canadian roads without breakdown, would have a high clearance for the roughest roads, would have a staunch simple motor that wouldn't break down twenty miles from any town, would be operated and fixed easily by the owner himself. This car had to be comfortable under all conditions—light enough to be easy on tires. We found cars that nearly met these demands, but with selling prices high above fair intrinsic value. We would avoid them for costly experiments we made these high prices. Slow methods of making and selling cars. We would cut the experiments and slow factory methods, and give a car the one of cars usually sold at \$2,500.

Same price as **\$1,450** Two Years' Guarantee

With Extra Tire and Special Equipment

You Pay EXACTLY U.S. Prices

Canadians are now charged \$150 to \$400 over American prices in the "Everitt" car. The cost of the "Everitt" with extra tire and special Canadian equipment is the U.S. \$1,450. The Canadian special equipment costs extra there is not furnished in the United States—is furnished in Canada. \$100 extra is charged in the United States for the extra tire and special equipment that come with the Canadian "Everitt."

You pay the same price here as in the United States—no "duty" to add—no extra cost.

How Simple The Motor Is

The motor is simple in other ways, too. The oiling, for instance, is automatic. All four connecting-rod bearings dip in the bottom half of the crank-shaft housing. This is like a dish, with oil in it.

The bearings dash into this oil each revolution. They oil themselves. The splash of the pistons, and the pistons oil the cylinders. The splash also oils the crank-shaft, beats the oil, the crank-shaft, the crank the push-rod. You personally need have only one care—to fill the oil chamber.

Power At The Tires

The power transmission in the "Everitt" is "flexible." We mean by that the motor, clutch, shaft and speeder box, leading to the rear axle drive, have "give and take" in them.

If a rear wheel rises over a curb, the axle tilts, the gear box and shaft rise slightly, the clutch accommodates itself—there isn't an ounce of strain on motor, shifting, tire and wheel.

To show how much power the "Everitt" can really get to the rear tires, we use only two universal joints, just behind the chassis. The joints connect power as they are out of line. In the "Everitt," unlike any other machine, the transmission gears are placed at the rear axle, with one universal joint. The clutch and its universal joints are at the far end of the propeller shaft, where the movement is least. Minimum universal joint movement is in this design. Little power is lost. It means speed, and little strain on motor, shaft or rear axle. It is almost the only way to build a car for the roughest roads in Canada.

Big Wheels, Wide Bodies, Low Hung Car

We wanted the "Everitt" to be far ahead of anything ever offered either in Canada or the United States. The "Everitt" has 34-inch wheels, and we find such construction only in \$3,000 models and higher.

Rear seats are extra wide, easily taking 3 passengers. This is a luxurious feature. All upholstery is hand-built leather—a feature not to be looked for in cars under \$3,500.

Long wheel base and short turning radius make an easily handled car. The double-drum "Everitt" frame permits a low riding of gravity, pulling the load down to the ground, preventing skidding, at the same time permitting 114 in. road clearance.

We Meet High-Price Standards

Jigs and fixtures both standard and lower cost. "Everitt" cost savings allow us to use 34% skilled steel. This gives you \$4,000 car material in \$1,450 machine.

We meet high-price car standards in essential points. Cars at as high as \$3,000 offer no more than the "Everitt" \$1,450.

"EVERITT" STANDARD TOURING 1911 MODEL, \$1,450

Double-drum frame, 118 in. wheel base, 36 in. axle, 3 1/2 in. tire, universal joint, internal and extra axle brakes on rear wheels, Bosch high-torque magnets, improved adjustable motor, "speed" forward, 3 reverse. Motor: 1-cylinder, 8-cylinder, 10-cylinder, 12-cylinder, 14-cylinder, 16-cylinder, 18-cylinder, 20-cylinder, 22-cylinder, 24-cylinder, 26-cylinder, 28-cylinder, 30-cylinder, 32-cylinder, 34-cylinder, 36-cylinder, 38-cylinder, 40-cylinder, 42-cylinder, 44-cylinder, 46-cylinder, 48-cylinder, 50-cylinder, 52-cylinder, 54-cylinder, 56-cylinder, 58-cylinder, 60-cylinder, 62-cylinder, 64-cylinder, 66-cylinder, 68-cylinder, 70-cylinder, 72-cylinder, 74-cylinder, 76-cylinder, 78-cylinder, 80-cylinder, 82-cylinder, 84-cylinder, 86-cylinder, 88-cylinder, 90-cylinder, 92-cylinder, 94-cylinder, 96-cylinder, 98-cylinder, 100-cylinder. Price, without extra equipment, \$1,450. L.O.B., 1911.

Yet, though we gave \$2,500 value, as understood in quality and performance, we aimed to make the price \$2,000 or less. The problem was first one of design, then one of manufacturing methods.

We Sought "High-Price" Standards

In our search we planned to make a car that in material, design and wearing quality would be a de luxe car. This meant using 34% nickel steel in transmission gears, for instance, getting Bosch magnets, large wheels, and other "high price" details. It had to be a long stroke, large capacity, four-cylinder engine, simple and long-wearing. We wanted our car to be consistently good, through and through.

Jigs and Tools

These things added to our value immensely—made the car better. But they also added to cost. Could manufacturing cost—labor cost and material—be reduced and how? We found they could be by using "jigs." "Jigs" are glass-metal frame fixtures. These hold each auto mobile part absolutely true while being made. They guide drills, planes, and other machines working up these parts to plane, drill, etc., exactly right. These parts must not vary 1/1000th of an inch, are always absolutely true. A jig is a rigid, exact guide that forces absolute accuracy of work, so no pieces are spoiled, no pieces are imperfect, no pieces vary, no labor-cost is lost, no time is consumed in adjustment.

The first cost is great. The labor-saving is immense. The speed of production is tremendous. One work is started, after jigs are made.

We Find How To Give Canadian Car Value

This was the new way to make automobiles. The old way was to make pieces roughly by hand, and then assemble these pieces, and fit them together by slow and laborious processes, and slowly turn out a few cars a high price.

The design of the car being correct, the car we would give Canada would be a "jig" car. We could turn out a hundred such cars at the labor cost of turning out a score of cars made the ordinary way, and fitted together.

It gave value. It gave room for value in materials—in the quality—in the work. If we could get such a car, we could give Canada the greatest value known in car manufacturing. We could reduce the price. We could entirely make such a car in Canada, having its jigs already designed for us.

This is something new in Canada—making a car entirely from "jigs."

We Find The Car

Lack of "jigs" for making such a car as we wanted cut out many cars. Finally we found the "Everitt" a car of perfect design for Canadian roads, with 782 special jigs to build it by. Experiments on both car and jigs were avoided.

Our search was ended. We needed the "Everitt." It was right. It met Canadian, the Canadian market price, the substantially and accommodation needed to give a "consistent" car. We took the car itself. We erected a special factory. We built the 782 special jigs, duplicates of the Detroit features. The "Everitt" car was the advantage of fifteen years' automobile design, and of modern making, without the cost of experiments in the past. This we did in Canada, entirely out of Canadian raw materials, a car with \$2,400 value and \$1,000 quality in bearings, etc., at \$1,450.

Deliveries

The "Everitt" car, being made by means of 782 special "jigs," templates, fixtures, etc., as explained, not only has its individual parts made very rapidly, but many of the smaller parts are made on automatic machines.

This speed in making absolutely standard parts that are interchangeable from the "Everitt" car, to another machine, makes early and complete commencement of "setting up."

Unlike cars made by old methods, building an "Everitt" car from its parts is simply means joining by their proper bolts and other attachments pieces that are already ready and in position.

These are deliveries.

The "Everitt" car will be finished and ready on delivery dates promised.

An Owner's Car

In considering a car purchase, remember that the "Everitt" is entirely Canadian-made, is consistent, reliable, made of as few pieces as possible, and is a complete car.

"Everitt" a complete equipment.

You can operate the car and do all the running it needs, all the adjusting, all the minor alterations it may need.

You do not need the aid of a chauffeur or a machinist. It is an owner's car in every sense.

The \$1,450 you pay for your "Everitt" with its extra tire, and other extras, is the only money you pay for the car and its complete equipment.

It is this money you pay for the car and its complete equipment, in purchasing any car. This is explained in the catalogue.

Two Years' Guarantee

In place of a 60-day guarantee, the "Everitt" car is guaranteed for two years. Because the car is inspected many times during the process of making, and each part that it finds any defect in.

This means to you ample time to bring out any flaws in the material of the car that may have escaped inspection. It means that the Tudhopes stand behind the car.

A REAL DUEL FOR MONTREAL

Montreal, Feb. 16.—Several
wounds exchanged during an encounter
into the Recorder's Court, resulting
in a challenge to fight a duel being
issued to Assistant Superintendent
McQuinn by the Recorder's Court.
Coming out of the Recorder's Court
yesterday, Dr. Hock, leader of St. John
Hall, walked up to Mr. Quinn, who
was standing near the door.
"I would like to speak to you," said
the doctor, dramatically.
"I am the Assistant-Superintendent
tender, drawing his thin uniformed
figure up to its full height.
"I am I would like to slap your
face," said the doctor, waving his
hand. Mr. Quinn's face turned
very white, but he said he was here
to help Mr. Quinn.
"All that is not going to be a
vulgar fight," replied the doctor.
"No, Mr. Superintendent," said the As-
sistant-Superintendent, "this is a chal-
lenge to fight a duel."

The doctor bowed haughtily and,
waving his arm, said: "You shall
hear from me," then walked out of
the City Hall.
Mr. Quinn went to Mr. Flynn
his office in the Health Department
and asked him if he would act as
second. Mr. Flynn consented to act but
then arose the question of the choice
of weapons. Mr. Quinn told Mr.
Flynn that he was a pretty good
shot with a revolver. They then
agreed that they would obtain the advice
of Mr. Ryan, of the Recorder's Court
office. Messrs. Quinn and Flynn held
a conference, and on the advice of
Mr. Ryan decided to secure their
weapons.

RACE FOR THE SPECIAL PRIZES STARTS

Candidates Working for Special Prizes Show Determination to do Their Best, and Indications are That Race Will be Very Exciting Before End of Week—Remember Double Votes on All Subscriptions of One Year or More—An Offer as Large Will Never be Repeated—Act Now

The race for the special prizes, the beautiful \$25.00 Suit or Gown or merchandise order that amount purchased from Ritchie & Co., started yesterday, and all candidates will, no doubt, be very active in making a great effort to win the first special prizes to be offered in this great contest. This week is expected to be the busiest since the race began. The most encouraging and stimulating feature of this contest to the young women is the fact that no one knows how the other candidates stand. The fear of signs that a single subscription not secured may cause the loss of the Heintzman & Co. piano has excited only the zeal with which they go after the help of their friends. Many of the candidates are beginning to feel that the difference between a good newspaper and a poor one, and they are not hesitating to show that difference to themselves who patronize the special. Every day many of the candidates report one or possibly a number who secured only to be waiting for some one to ask them to subscribe to The Intelligencer. From now until the finish there will be sharp competition among the contestants and each will try to reach the top place and hold their position. The reports the girls give of their work bubble over with enthusiasm as they tell how they won their last thousand or ten thousand votes. One contestant thought she had to hold the amount of money on the different subscriptions until she was in a position to publish. THIS IS WRONG! She should bring the money here at once and she will receive a certificate for votes that day. She then vote this certificate any time she desires during the contest. This saves you the responsibility of keeping the cash in your possession. Competition and work is the foundation of all success and you cannot expect to win one of the handsome prizes without the effort. The work is easy, the prizes well worth the effort, and besides the work gives you a winner. Do not wait until the leader is out of sight, catch her now and give her a race she will remember.

SCHEDULE OF VOTES.
The following schedule is to be DOUBLED on all subscriptions turned in for ONE YEAR or more during the next ten days, Feb. 15th to Feb. 25th, inclusive:

INDIANS CHARGED WITH SERIOUS OFFENSE

At Des Moines, Iowa, last night, a group of Indians charged with a serious offense were held in custody. The group of the preliminary arrests included a group of Indians who were held in custody at last and subsequently at last.

INDIGESTION

An interesting statement. Portland, Me.—I suffered so long with indigestion and stomach trouble that I lost sleep every night—I had used all kinds of remedies and had been told that I was incurable. I decided to try it.

I soon commenced to feel better my stomach trouble disappeared and I was able to eat without the slightest distress. My experience leads me to believe that this is the best remedy for indigestion and stomach trouble.

It tones up the stomach, increases the appetite and creates strength. W. E. Waterhouse. (We guarantee this feeling to be given.)

Vinyl added taste to strengthen and tone up the liver, overworked and weak nerves of the digestive organs and restores the sense of vigor and ease and enables the sufferer to digest food without the least trouble.

Try a bottle of Vinyl with the unflinching confidence of a doctor. If it does not help you, J. B. McKenna.

The Two Districts are Divided as Follows:

DISTRICT NO. 1.—All territory within the city limits.

DISTRICT NO. 2.—All territory covered by The Intelligencer outside of the city limits.

Remember, there are two grand prizes, one for each district, and five district prizes for each of the two districts, 12 prizes in all.

Special prizes will be awarded from time to time during the contest.

THE ONLY CONDITION—Cut nomination blanks and ballots carefully along the heavy ruled line and send to the office.

THOSE ELIGIBLE—Any lady of good character may become a candidate by being nominated in proper form.

THOSE EXCLUDED—No employee of the daily paper or dependent member of a family of such an employee will be accepted as a contestant. The Intelligencer also reserves the right at any time during the contest to refuse to admit any who, for any reason whatever, are deemed undesirable.

WITHIN THE DISTRICT—Each contestant resides in the district in which she is nominated.

Candidates are not confined to work solely within their district; the whole territory is a field for each contestant.

AS TO CONDITIONS—In accepting the nomination, each contestant agrees to abide by all of the above conditions and to accept the decision of The Intelligencer in any controversy that may arise.

THE SECOND THING TO DO—Send for the nomination blank to Contest Manager of The Intelligencer, which will give you credit for 1,000 votes toward winning one of the 12 prizes, and will send you a receipt book to be used when securing subscriptions to this paper. A representative of The Intelligencer will call upon you and explain the proposition in detail. If you don't thoroughly understand it, and will render you any assistance possible. You must know that we are anxious to have you in the race, please do not fail to call on us as much time and use as much space in talking to you about it. We shall keep this up until we have you interested, either (a) yourself or (b) one of your friends.

THE FIRST THING TO DO—Get out the nomination blank, which will be found in each issue of The Intelligencer. Fill in the blanks with your name, etc. If you wish to nominate yourself, or with the name of anyone else whom you may choose to nominate, be very careful to write plainly, so that there can be no possibility of an error being made. There is no doubt that your nominations will be careless in making out their nominations and subscribing, though we wish to avoid it as far as possible, and will ask the cooperation of those interested in the contest. Please send this in blank securing an inscription in The Intelligencer.

THE THIRD THING TO DO—As soon as you are nominated, get out among your friends, get them to subscribe for The Intelligencer, giving you their value (rate scale, which will be found in each issue of the paper). Send the subscriptions to the Contest Manager, together with the amount covering each subscription. An early start will be of great advantage to you as a few of them will get you up high up in the list that you won't want to allow anyone to beat you. There is no reason that you should, either. All you need to do is to keep on working. Pay no attention to how many votes some one else has; look after your own candidate, and thereby get a good example for the other contestants.

day, While They Count for Most-Contest Dept.
Open Until 8.30 Tonight

At 8.30 o'clock tonight the special prizes will be won by the
candidates who up to that hour have turned in the largest amount of money
on subscription tickets in each of the two districts during the last ten days.
And at the same hour the giving of double votes for subscriptions of one
year or more will close.
Nearly all of the contestants have profited by the bonus vote offer,
which enables them to double votes on all subscriptions of one year or
more in duration. The period ending tonight the completion
for the Special Prizes, the \$35.00 merchandise order purchased
from Sinclair's and the beautiful gold watch, has been spirited from
the day these special prizes were announced. Today the balloting has
increased to a remarkable extent, and the closing hours of the special
prizes offers promise to take the facilities of the contest department to
hand and record the votes.

Don't fail to take advantage of the last few hours of the extra
bonus vote offer that will be given in this contest.
Don't forget that every subscription of one year or more turned in
up to 8.30 o'clock tonight receives double votes.
Miss Mary Fleming and Miss Louise Steiner seem to have a firm
hold on the leadership in their respective districts. Many others, how-
ever are moving steadily to the front and many others are waiting
for the vote column shows to have more interesting changes to
come. Many of the prizes have come to the front with many thousands
of votes. Keep your eye upon the vote column. "Watch the girl
climb."

HOW BALLOTS ARE RECORDED.
In all cases where vote certificates are issued, subscriptions must
be paid in advance. The full amount of money must be sent direct by
mail, paid to the contestant, or brought to this office.

A representative of The Intelligencer will call upon you and explain the proposition in detail, if you don't thoroughly understand it, and will render you any assistance possible. You must know that we are anxious to have you in the race, otherwise we would not spend so much time and use so much space in talking to you about it. We shall keep this up until we have you interested, either for yourself or for one of your friends.

THE THIRD THING TO DO—As soon as you are nominated, get out among your friends; get them to subscribe for The Intelligencer, giving you their votes (vote scale will be found in each issue of the paper). Send the subscriptions to the Contest Manager, together with the amount covering each subscription. An early start will be of great advantage to you as a few of these will put you so high up in the list that you won't want to allow anyone to beat you. There is no reason that you should either. All you need to do is to keep on working. Pay no attention to how many votes some one else has; look after your own candidate, and thereby set a good example for the other contestants.
